PROFESSIONAL SUMMARY

Enthusiastic learner with a passion for building practical solutions. Quick to adapt and eager to explore software development, data science, and emerging AI technologies.

EDUCATION

Sagi Ramakrishna Raju Engineering College(SRKR)(Autonomous)	(2024-2028)
B.Tech in Computer Science and Business Systems	CGPA: 9.66
Aditya Junior College	(2022-2024)
Intermediate	97.7%
Jnanananda E.M High School	(2021-2022)
Secondary School	92.8%

TECHNICAL SKILLS

Programming:	Python, Java, C
Web Development:	HTML, CSS, JavaScript, React, Node.js, Express.js
Databases:	MySQL, SQL, DBMS
Core CS:	Data Structures & Algorithms, OOP
Data & BI:	Pandas, Plotly, Streamlit, Power BI
Tools:	Git, GitHub, Docker, Postman, VS Code
Cloud:	Google Cloud, AWS

PROJECTS

Campus Connect Hub – Student Collaboration Platform

React / Node.js / Express.js / MySQL / JWT / REST APIs

- Developed a full-stack platform that helps students **discover and manage study groups**.
- Implemented user authentication, profiles, study groups, and notes using **JWT-based authentication**.
- Built REST APIs using **Node.js and Express.js** and integrated them with a MySQL database.
- Tested backend APIs using Postman and managed the project using Git and GitHub.

Retail Business Intelligence Dashboard

Python / Streamlit / Plotly / MySQL

- Developed an interactive business intelligence dashboard for analyzing **retail sales and product data**.
- Integrated **MySQL** for database-driven data management and Plotly for interactive visualizations.
- Built a Streamlit-based interface for presenting business insights and analytics.

OptiCrop – Smart Agricultural Production Optimization Engine

Python / Machine Learning / Data Analysis

- Developed an agriculture-focused application using **N, P, K, soil temperature, humidity, pH, and rainfall** parameters.
- Built a data-driven system to provide agricultural recommendations based on soil and environmental conditions.
- Maintained and documented the project source code using Git and GitHub.

INTERNSHIPS

Full Stack Vibe Coding Intern – Swecha

2026

- Worked on full-stack web development through a hands-on Vibe Coding internship.
- Built a **Study Group Finder** as a team project to help students discover and connect with study groups.
- Gained practical experience with **Docker**, Git/GitHub, and modern development tools.
- Collaborated with team members on development, debugging, and project implementation.

ACTIVITIES & ACHIEVEMENTS

- Regularly practicing **Data Structures and Algorithms (DSA)** to strengthen problem-solving and coding skills.
- Participated in **Git & GitHub Workshop**.
- Continuously learning and building projects in **Full Stack Development, AI, and Data Analytics**.
